

# TECHNAFLORA PLANT PRODUCTS LTD

## Material Safety Data Sheet

Pura Vida Organics –  
Bloom

### 1. Product and company identification

**Common name** : Pura Vida Organics – Bloom  
**Material uses** : Organic fertilizer. 726722  
**Supplier/Manufacturer** : Technaflora Plant Products Ltd. 726723  
1533 Broadway Street, 125 726724  
Port Coquitlam, B.C. 726725  
Canada, V3C 6P3  
Tel. 604-468-4769 / 1-800-586-1211  
**In case of emergency** : CHEMTREC, U.S. : +1-800-424-9300 International: +1-703-527-3887

### 2. Hazards identification

**Physical state** : Liquid.  
**Odor** : Seaweed.  
**Color** : Brown. [Dark]  
**Hazard status** : This material is classified as not hazardous under OSHA regulations.  
**Emergency overview** : No specific hazard.  
USE WITH CARE.  
Follow good industrial hygiene practice.  
**Routes of entry** : Dermal contact. Eye contact. Inhalation. Ingestion.  
**Potential acute health effects**  
**Eyes** : No known significant effects or critical hazards.  
**Skin** : No known significant effects or critical hazards.  
**Inhalation** : No known significant effects or critical hazards.  
**Ingestion** : No known significant effects or critical hazards.  
**Potential chronic health effects** : Carcinogenic effects: Not classified or listed by IARC, NTP, OSHA, EU and ACGIH.  
Mutagenic effects: Not available.  
Teratogenic effects: Not available.  
**Medical conditions aggravated by over-exposure** : None known.

See toxicological information (section 11)

### 3. Composition/information on ingredients

#### United States

Name	CAS number	%
No hazardous ingredient		

## 4 . First aid measures

- Eye contact** : Check for and remove any contact lenses. In case of contact with eyes, rinse immediately with plenty of water. Get medical attention if symptoms occur.
- Skin contact** : Wash with soap and water. Get medical attention if symptoms occur.
- Inhalation** : If inhaled, remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms appear.
- Ingestion** : Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.
- Notes to physician** : No specific antidote. Medical staff must contact Poison Control Center.

## 5 . Fire-fighting measures

- Flammability of the product** : Non-flammable.
- Products of combustion** : Decomposition products may include the following materials:  
sulfur oxides  
metal oxide/oxides
- Extinguishing media**
- Suitable** : Use an extinguishing agent suitable for the surrounding fire.
- Not suitable** : None known.
- Special exposure hazards** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. In a fire or if heated, a pressure increase will occur and the container may burst.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## 6 . Accidental release measures

- Personal precautions** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see section 8).
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Methods for cleaning up** : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal.

## 7. Handling and storage

- Handling** : Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Storage** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## 8. Exposure controls/personal protection

Consult local authorities for acceptable exposure limits.

- Engineering measures** : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.
- Eyes** : Safety glasses.
- Skin** : Lab coat.
- Respiratory** : A respirator is not needed under normal and intended conditions of product use.
- Hands** : Disposable vinyl gloves.

**HMIS Code/Personal protective equipment** : A

**Personal protection in case of a large spill** : Safety glasses, goggles or face shield. Impervious gloves. Full suit. Boots. Wear NIOSH-approved self-contained breathing apparatus or equivalent and full protective gear.

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling compounds and before eating, smoking and using the lavatory and at the end of the day. Follow good industrial hygiene practice.

## 9. Physical and chemical properties

- Physical state** : Liquid.
- Color** : Brown. [Dark]
- Odor** : Seaweed.
- pH** : 4.8
- Relative density** : 1.18
- Solubility** : Miscible in water.

## 10 . Stability and reactivity

- Stability and reactivity : The product is stable.
- Incompatibility with various substances : Reactive or incompatible with the following materials: oxidizing materials and acids.
- Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- Hazardous polymerization : Will not occur.
- Conditions of reactivity : Not available.

## 11 . Toxicological information

### Acute Effects

- Eyes : No known significant effects or critical hazards.
- Skin : No known significant effects or critical hazards.
- Inhalation : No known significant effects or critical hazards.
- Ingestion : No known significant effects or critical hazards.
- Potential chronic health effects : Carcinogenic effects: Not classified or listed by IARC, NTP, OSHA, EU and ACGIH.  
Mutagenic effects: Not available.  
Teratogenic effects: Not available.

## 12 . Ecological information

- Environmental precautions : No known significant effects or critical hazards.
- Products of degradation : Not applicable.

## 13 . Disposal considerations

- Waste disposal : The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## 14 . Transport information

NAERG : Not applicable.

### Regulatory information

UN/ IMDG/ IATA DOT : Not regulated.

## 15 . Regulatory information

### United States

- HCS Classification : Not regulated.
- U.S. Federal regulations : **United States inventory (TSCA 8b):** Not determined.  
**SARA 302/304/311/312 extremely hazardous substances:** No products were found.  
**SARA 302/304 emergency planning and notification:** No products were found.  
**SARA 302/304/311/312 hazardous chemicals:** No products were found.  
**SARA 311/312 MSDS distribution - chemical inventory - hazard identification:** No products were found.
